	Steers remained calm in the yards with their mother outside in a holding yard and moved through the assessment process well. As a mob of cows and calves they are moved regularly and have been through the yards as required. Being unweaned they will require additional handling and education.

Assessor Comments

On offer is an outstanding line of 88 one-mark Angus steer weaners. Steers are 8-9 months old and showing exceptional

growth for their age. These weaners are Te Mania Blood, very fresh with plenty of shape. The Wills family cattle are renowned performers with buyers returning to purchase them. All calves are still on their mothers and will be until delivery. Please note the vendor has the 77 heifers offered in the same which are the sisters of these steers.
