Assessor Comments	Very good line of 10-12 month old vendor bred Angus weaner heifers presenting in forward store condition. Heifers are bred out of first calver heifers purchased from central and southern tableland weaner sales and sired by Stud Temania and Wattle Top bulls. This sale represents the Top of the vendors drop with no expense spared on genetics on the way in. These heifers would make fantastic future breeders but will grow out to fit any Angus feeder grid, domestic or export kill.
