Notable Traits	Traits 1 Head 1 noted to have old blue eye scarring in one eye 1 Head heifer noted to have white on udder and belly		
Assessor Comments	On offer are 37 Angus future breeders these heifers have an average live weight of 338 kg at assessment after a full curfew. These heifers are ideal future breeders as they have their whole breeding life in front of them. these heifers have not experienced any setbacks and are currently being yard-weaned onto oaten hay in yards, and being educated through yards. These heifers are Hazledean bloodlines out of large-framed Angus cows. Given the opportunity, they should continue to grow into large framed cows. These heifers carry my strongest recommendation.
