Assessor Comments	An annual draft of the "Widgewa station" steers. March/April drop, impeccably bred & pure Dunoon blood. These steers are very hard to fault, coming with the agents highest recommendations. Good temperament calves with plenty of frame & good weight for age. The steers are currently in the weaning process, they only had access to water 24 hours prior to assessment and were taken off their mothers throughout. They will be on good quality pasture hay until delivery. Buy with confidence, knowing that the Widgewa steers are highly sort after by feedlots & backgrounders alike.
