	These steers were a real pleasure to handle through the yards while being weighed, drafted and filmed. 2hd exited the crush a little faster than the others, nothing much at all, just a little different to their mates. 1hd steer pushed through the mob slightly compared to the others in the yards while being filmed. Temperament a credit to the vendor.

	8 Head	Old pinkeye scars
	7 Head	Spot of white in front of testicles

Assessor Comments	A great opportunity to purchase 2 decks of quiet, vendor bred Angus feeder steers.(NOTE - 6hd are not Vendor bred) These steers were extremely quiet to handle while being assessed, have been vaccinated with Bovillus MH + IBR and would grow out to excellent bullocks or onto heavier feeder weights. Bred to perform, these steers are out of a Rennylea / Glenruben blood cow herd, by Rennylea Angus bulls - Only Rennylea bulls have been purchased over the last 5yrs. Vendor would normally grow out to heavier weights but needs to make room for younger stock coming on. Weights - 339kg - 442kg to Ave 375kg at assessment. NOTE - A good% of steers have some warts on their necks and face. NOTE - the eyes are very small old scars not detrimental to their health, please refer to photos.
