	These steers only get handle by one individual so they do react when strangers enter the yards and handle them - in saying that they flowed well in the yards while being filmed and photographed, 3 head were a little head up and pushy compared to their mates. In the crush 3 exited faster than the rest, 2 moved around a lot while being weighed and exited faster than their mates.

	3 Head Spot of white in front of testicles

Assessor Comments	A well grown line of grassfed accredited, EU Angus steers. These steers are just starting to really fire after the very dry Autumn / winter. They will make great heavy feeder steers or grow out to bullocks.A small % has the odd wart on neck and head - not detrimental to their health. Vendor has another 50 heavier feeder Angus EU steers in this auction.
