Assessor Comments	Buyers a good line of Backgrounding , or Trade on Hfrs with room for improvement, found them generally with light fat cover but odd well covered, as with the other from same vendor in this sale , feel most of these Hfrs are just starting to improve and ideal to carry on with , some would suit Live Export whilst others either Background for Feeder Job, or take on to Kill Hfrs, predominately Vendor Bred , but bought Hfrs through out, good Med frame for age , very odd considered small ,but these are the younger of the line , 62 Grey, 45 Honey,13 Red 4 Black, 2 Baldies, 5 various, have been in Vendors Feed Yard aprox 40 days , so accustomed to eating out of trough/bunker, so if your intending on feeding, be assured these Hfrs should go straight on to feed . beat described as good line of store cattle , with potential ,with impending rain forecast over next few days, an extended delivery is available of 7 days or when road is dry enough for truck
