Comment on Fat Score 1 Cattle	7% Forward to fresh store, 88% strong store condition & 5% lighter store - sound fit, strong and healthy. On the do from recent green feed - starting to stick and power ahead.
Vendor Bred	Yes
Stock History	Bred from a herd of Angus / Santa cross, Angus / Santa / Angus cross, Santa & Santa cross cows. As well as Santa/Brahman/Santa and other mixed breed crossbred cows.
Lifetime Traceable Bloodlines	100% of cattle in this lot are Lifetime Traceable By Banquet Angus, Irelands Angus bulls with Bullamakinka Santa genetics on the dam side.
Grazing Conditions	Rain in the recent 3 weeks has produced a good bulk of fresh green Mitchell grass & dry grass blend in approx 60% of the paddock with the balance mature reasonable quality dry Mitchell.grass - improving quickly & cleaning up in the coat. Returned to: A holding paddock with good bulk average quality dry Mitchell grass - short term until delivery. I expect this feed to plateau the recent gains.
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	6

	Quality Grades		Store Condition	
	Very Good	35%	Fwd Store	15%
	Good	55%	Store	85%
	Fair	10%		
Temperament	Yards		Crush	
	Docile: 45 head		Docile: 25 head	
	Quiet: 122 head		Quiet: 137 head	
	Slightly Stirry: 11 head		Slightly Stirry: 16 head	
	Good to handle in the paddock and yards. 16 were quicker in the race and eager to exit largely due to a sticky slide gate however settle well when back in the mob. Overall they are a well handled mob of heifers.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits			
	15 Head	early stage pinkeye/weeping		
	4 Head	old fly marks		
	2 Head	old pink eye scar - light/moderate		
	9 Head	white face or underline		
Assessor Comments	Very good quality Angus cross heifers well grown & relatively even in overall strong store condition with frame, potential & scope to quickly gain weight on good quality feed having shown significant adjustment & improvement since the recent rain. By description Angus/Santa/Angus cross and show very high dominant Angus traits & characteristics in the main. They would benefit from a fly preventative treatment (depending on destination) with some showing early eye weeping / fly irritation / pinkeye at assessment. There may be some more develop due to the dry dusty yards & increased fly irritation with hot humid conditions - please take this into consideration in your pricing. Be sure to view the photos for breed clarification and style. Paralells: Cipp Murray & Hunter Lawson.
