	Good to handle in the paddock and yards. 14 were quicker in the race and eager to exit largely due to a sticky slide gate & second time around however settle well when back in the mob. Overall they are a well handled mob of heifers.

Assessor Comments	Good quality Santa & Santa x cross heifers well grown & relatively even in overall strong store condition with frame, potential & scope to quickly gain weight on good quality feed having shown significant adjustment & improvement since the recent rain. They would benefit from a fly preventative treatment (depending on destination) with some starting to lick their shoulder at assessment. Be sure to view the photos for breed clarification and style.
