Assessor Comments	An excellent line of mainly vendor bred angus x weaner heifers with a handful being off cows that the vendor purchased as units for his breeding herd. Heifers have been weaned and in store condition and will perform on any pasture. Heifers are out of mainly angus and santa cows by stud Nindooibah and Texas angus bulls, have all been worked with dogs at weaning and have had two doses of 7in1. These cattle are extremely quiet and would be ideal future feeders for feedlots feeding for the domestic market such as woolies or coles, or would be perfect for a breeding program. Please note two heifers have small warts but this is not detrimental to their health.
