Assessor Comments	A fair through to mostly good and very good quality rising 3 to 6 years old cows with calves at foot. They are 80% vendor bred with the balance purchased as weaners or young PTIC heifers in 2022. They have Texas sired calves at foot of which 20% were weighed and ranged from 49 - 140 kg to avg 105 kg after being off the cows overnight. Please note 111 calves were counted and it is suspected there is 2 sets of twins in the cows. The cows have been rejoined to Texas and Raff Angus bulls from 17/10/24 until delivery (see attachments). The cows are 48% medium and 52% large frame and are in store condition. The cows were mustered into a laneway on Sunday and then yarded Monday and dry overnight curfewed prior to assessing - it is a very curfewed weight. Three cows noted with one or two enlarged teats and two cows with 2 x mod blue eyes. These are good functional cows with good quality Angus sired calves at foot that have years of breeding left ahead of them.
