Assessor Comments	A quality line of Angus Heifers with great genetics. These heifers were purchased as weaners off a reputable breeder out of the local district. The heifers were scanned 3 - 6 months in calf to Urban Angus Bulls. There are 2 heifers with white from their udder to the navel in the mob. The heifers have been running on very fresh feed since the start of spring and are performing well. (Heifers will be sold as a run out the gate 35 head and 34 head.)
