| Assessor Comments             | A nice line of one-mark Angus X 1st-calf units. These heifers are bred from a herd which is based on GAR & SAV ANGUS bloodlines, with a focus on selecting sires with high growth rates. Heifers are presenting in fresh condition, with medium to good frame & quiet temperaments. Heifers are starting to clean up in the coat, with some showing signs of rub, & would benefit from a backline to assist in shining up. Heifers are nurturing a very even drop of GAR & SAV Angus sired calves, which are the beneficiaries of targeted, quality carcass & high growth-rate traits, of the breeder when selecting sires, & they should really hit their straps in the coming months with the abundance of milk their mothers are producing. A great opportunity to secure a good line of quality, proven breeders with a lifetime of production ahead them. Vendor has another 2 lines of Angus heifers with calves at foot, on offer this sale also. |                                                  |                          |                |
