	1 Head	1 steer calf with tiny white fleck on pizzle		
	2 Head	Slight white on udders of 2 Cows		
	1 Head	Small birthmark on face of 1 cow (see last photo for reference)		
Assessor Comments	A good line of quiet Angus heifers, on their 1st calf. This line of heifers were purchased as yearlings, mainly ex AuctionsPlus, as part of the vendors breeding operation. Heifers present as moderate in frame, with approx 3 or 4 larger-framed heifers throughout. They are producing plenty of milk, which is evident in the fresh calves at foot, which are predominantly 2-7 weeks of age, with 1 heavier steer calf born earlier at 12 weeks of age. Heifers have been running continuously back with the TeMania Angus bulls since calving, which have been observed to be working, however continued joining would be advisable due to the young age of the calves. Presenting in fresh store condition, these heifers are just starting to clean up in the coat, & would benefit from a backline drench. A great opportunity to secure quality young breeders which have calved unassisted, with a lifetime of production ahead of them. Vendor has another line of 24 x 24 Black Baldy 1st calvers on offer this sale, also
