Assessor Comments	Young Poll hereford breeders with their lives in front of them, excess to requirements of the breeder who now only has a small block and keeps just the very best. Formally out of the Westmorland Poll hereford stud, these young cows have years on breeding and pedigrees in their genetics, no longer registered. They are medium frame, functional cattle that would suit a range of programs, weight is only due them being first time mothers. They are not carrying any excess condition but have plenty of milk underneath them and the calves are very fresh and sappy. Heifers were noted to be cycling again and are ready for a bull immediately. 2 calves are slightly older (July drop), balance are all very even and born in September. They are nice young units that will do a job on better feed and cattle you will have a lifetime.
