	Cows were well behaved and easy to draft off their calves in the awkward 'ex dairy' yards. All led up the race well and were good in the crush, some of these cows are very long, & had to have a bit of pressure put on them to squeeze on to the scales, non stirred up from this. In the holding paddock they had a bigger flight zone, but still blocked up along a fence line

Assessor Comments	Nice line of highly productive Angus Cows & Calves. Strong built females in the prime of their life. Purchased 2 years ago as Heifers & Calves from Adaminaby, Ex Bolaro Station. Cows are Pure Rennylea Angus Blood. Their young, strong calves at foot are by Table Top Angus sires, are lively & healthy and all being well cared for by their experienced mothers. Hard working cows that have a proven track record of producing high growing weaners that hit the 400kg mark inside 12 months and would be a good addition to any commercial Spring calving herd. Vendor is only offering these females for sale as he has moved into an Autumn calving program and these are the last of his Spring calvers. Showing active signs of cycling and ready to be rejoined to the bulls of your choice.
