Assessor Comments	An ideal opportunity to purchase a line of PTIC cows, 5 to 9 years in age. The vendor is selling due to the property being sold . The cows present in strong condition. These cattle have always been very carefully managed for temperament, and that quiet temperament shows in these pregnant cows. This is a commercial mob out of the Tooperangus Black Angus stud, and are running on the neighboring sister property. These cows are mated to Black Angus Tooperangus bulls, and are due to calve in March/April, 2025. Normally they would be kept as breeders. They have been curfewed at 565 kg, and will present in mainly fresh forward store condition. They have been drenched with Neove, and vaccinated. The same vendor will have two other lines of cows in this sale.
