	Quiet: 25 head	Quiet: 21 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
	Heifers handled very well in yards as shown in the video.		
Handled With	Bikes , On foot , Vehicles		

Assessor Comments	The Knyvett Family have been breeding Angus cattle for 25 plus years and have been using a lot of Ai programs to get leading genetics annually . These heifers are by EF complement 8088 ,Rennylea M710 and Strethewen Time out E11 . The heifers where joined for four weeks this shows the fertility with in the herd so they will calve from the 1st June for 4 weeks,they have been joined to Sons of the low birth high growth bull Chiltern Park Picasso +1.5 Birth and top20% for growth and 10% for milk plus top 2% for Carcase weight for the Angus breed. Hard to find a Quality line of heifers like this with the breeding behind them . They are very good to handle in the yards a couple jumped around the crush a little bit but when came out settled fine as seen in the videos . Note; There are 2 heifers with white in the udder area . Note Two Heifers with old pink eye scar on one eye .
Assessor	**Paul Banks (Level 2 Accredited)**
