Assessor Comments	A good line of quiet Angus heifers, on their 1st calf. This line of heifers were purchased as yearlings, mainly ex AuctionsPlus, as part of the vendors breeding operation. Heifers have developed well & are presenting as good frame & in fresh-store to forward condition. They are milking up well, which is evident from the fresh calves at foot, which are 2-7 weeks of age & predominantly sired by the vendors TeMania bulls. Heifers have been running continuously back with the TeMania Angus bulls since calving, however continued joining would be advisable to secure a more desirable result, due to the young age of the calves.These heifers are just starting to clean up in the coat & gain condition with the warmer weather. A great opportunity to secure quality young breeders with a lifetime of production ahead of them. # Buyers please note, Vendor has offered to the Black Baldy cow optional, which will be mothered & removed at buyers discretion, prior to delivery, if so desired.
