Assessor Comments	An excellent line of 2022 drop Poll Hereford Heifers with their first calf at foot. Heifers are in strong store condition and starting to power ahead now with the warmer weather upon us. They have had all their health treatments, calves are unmarked, although if this was an issue it would take much to slip a ring on them if needed. Part of a genuine herd restructure which has resulted in their need to move on. Cows in the prime of life certainly would slot into any whiteface operation ready to take your bulls of choice immediately with all the hard preparatory work done and all their productive lives ahead of them. Worthy of close consideration
