Cows were good to handle in the yards. A few getting a bit stirred up when they were drafted off their calves, then again when they were caught in the head bale to be mouthed. None showing any aggressive behaviour, just doing some stomping and bellowing in the crush at mouthing, then taking a bit to settle back down in the yards.

Assessor Comments	Healthy line of young breeders, with bright eyed, ‘up & going’ calves at foot averaging 158kg. A combination of lightening some numbers going in to Summer, along with a very good preg testing result, has made these females surplus to requirements. All cows are carrying a very good big bag of milk underneath them and are doing a terrific job on their calves. Calves already have one foot on the till, and the cows have enough cover to hook, making them a good lot for a split job if you wanted to go that way. Buyers please Note. Vendor has another 4 lot in the same sale, of both PTIC & calved females.
