Assessor Comments: 26X26 Station mated cows with second calf at foot being offered under dispersal conditions as property has been sold. Quality young med to large framed Angus females that present in forward to prime condition with great udders doing a very good job on their August- September calves. Half vendor bred Table Top Angus blood half Dunoon blood purchased as weaners ex Wangaratta store running back with Table Top bull since 23/10 until delivery (Bull available for purchase). Health treatments are all up to date with cows having Ivomec+ and Deltamax (fly and lice) calves first 5in1, Pilliguard and Deltamax at marking.
