Assessor Comments	Outstanding PTIC Autumn calving Angus Heifers. Boolarra is offering 54 heifers in three lots. These heifers are one half of 40 Heifers that have been AI'd to Baldrige Command C036 on 1st of May 2024, which would have them calve in early February 2025. The heifers were purchased off Crail & Winnidad in April 2024. They have had all the treatments. They are soft feminine heifers that are well grown and in perfect calving condition to a low birth weight AI sire. These heifers our out of two very prominent Western District herds of Crail & Winnidad. You will go a long way to find a better Angus heifer to calve in an as tight a calving period as physically possible, (one round of AI). Would be a absolute asset to any herd. Inspection are welcome and will not disappoint. Click on documents tab below photos and video tab for AI Sire details of Baldrige Command C036
