Assessor Comments	Danedite herd dispersal. These are the lead draft of 44 4th Calvers, 2019 drop Green tags offered in two lots. Danedite have been breeding Angus cattle for 80 years and have been using Te Mania and Banquet bulls. These cows have been joined to Banquet bull Q446 & Q272 (see ebvs attached) Calves were weaned off cows and sold in October and cattle have put weight back on and are in ideal calving condition. Cows were pregnancy tested by the Colac vets in mid October with only 3% of the whole herd empty. This present a rare opportunity to by genuine females from a long standing and well renowned property due to factor beyond vendors control. These cattle would be an asset to any herd or a magnificent start to a new one. We have had repeat buyers purchasing the steers over the last 20 years. Regretful sale due to seasonal conditions and lack of water.
