Assessor Comments	Quality PTIC Angus fourth calvers, ideal for restocking the heard after a tough season. Cattle that present well with words such as muscling, growth and cover coming to mind. There are 4 animals within this consignment who do have a small white spot on there udder, however nothing before the naval. Handle well in the yards and are quiet through the crush. Bred for great herd management, growth and structural confirmation. These cows are in calf to Boonaroo 528.
