Assessor Comments	Quality PTIC Angus Heifers, ideal for restocking the heard after a tough season. Cattle that present well with words such as muscling, growth and cover coming to mind. Handle well in the yards and are quiet through the crush. Bred for great herd management and calving ease. The Bull rennylea sire T307 has been chosen for his figures in short gestation, light birthweight's and calving ease. These Heifers are of Rennylea sire 561. The purchaser of these Heifers does have the right to refuse the Black Baldy (white face) Heifer upon request,
