Assessor Comments	A line of 60x4 mixed age, station mated cows and calves. Cows present in store condition with plenty of frame. Continually Joined to well-bred Keringa Angus bulls. Approx 15 Have been purchased ex Commadore Station the balance being Vendor Bred, cows range in age from 2-11 with the majority middle aged breeders. A good % of the cows visually look to be in calf with the bull running all year round Cows Present from Backward store condition to fresh condition with weaners coming off majority of the cows a fortnight ago These are an ideal mob to tip out on feed fatten and take on as breeders or trade them out.
