	2 Head Calves with pink-eye, 1 in one eye & 1 in both eyes, treated at assessment with Orbenin cream		
	5 Head Slight white on udder/underline of Cow		
Assessor Comments	A very even line of quiet Angus heifer & calf units, on their 1st calf. They are TWYNAM and KERINGA blood, Springside bred. They present in good forward condition & are of good frame & depth of body. These heifers are milking up well for an even line of calves at foot, which are equal parts, steers to heifers. The calves were marked & vaccinated at assessment with 2 calves being treated with Orbenin cream, for pinkeye, which will be re-treated at delivery. A great opportunity to secure quality young breeders in their breeding prime, which have calved unassisted, with top quality Angus calves at foot & a lifetime of production ahead of them. A great addition to any herd. Vendor is also offering a quality line of 24 x 24 Angus x Black Composite heifer & calf units, also on their first calf, this sale as well.
