Assessor Comments	The Kelly Family of "Glenmore" are renowned in North East Victoria for producing quality Angus cattle utilizing "Rennylea" Angus bulls for over 30 years. With regular feature weaner offerings these cattle need no introduction for their structural integrity and acceptance into all markets. These proven matrons have given great service being consistent breeders. Being rededepastured with a Rennylea blood bull for approx 3 week giving a solid opportunity for someone looking outfits with most of the work already done. With a even mix of the sex composition of the calves allowing for a reasonable group of heifers to be retained while still having the ability to offer a nice pen of steer weaners when the time comes.
