	Very well handled cattle that flowed through the yards with ease during the assessment.		
Handled With	Dogs , On foot , Vehicles		
Assessor Comments	Exceptional vendor-bred Hereford Shorthorn x cows and calves, rejoined to a powerful white Glenlyon Shorthorn bull (1125kg at assessment). Millbrook has 54 years of Hereford breeding expertise, with Yavenvale genetics for the past 12 years, crossed with Futurity Shorthorns to produce structurally sound, roomy, feminine females excelling in maternal performance. These 3-in-1 units have received premium animal husbandry, on November 13th all calves received B12 + Selenium and Piliguard. Additionally Steer calves were marked and given Meloxxi & a 2nd 5-in-1, and the Heifer calves received a 2nd 7-in-1 & Pestigard. Cows are joined to the Glenlyon bull for an 8-week period, ensuring excellent genetics and fertility. A rare opportunity to secure top-quality, proven breeding stock straight from Millbrook's core herd. Note *22 Steer calves avg 205kg * 11 Heifer calves avg 184kg
