Assessor Comments

An excellent opportunity to secure a line of genuine breeder EU Angus cows that are the result of 10+ years of selective AI breeding. The Borderdowns cattle are medium to large frame and turn off weaners in a range of 350-420 kgs consistently. These cows present in forward conformation and have been classed every year to be available in the annual turn off of 7.5 yo cows. These cows have been joined to sons of Millah Murrah Cruise Time, and will be pretested again for good measure before delivery. 5 head were mouthed at assesment, 1 cow had a single tooth missing with the balance being sound or worn. The Borderdowns cattle come with my highest recommendations. These cows are in 1 line of 84 and will be sold a 2 lots of 42 as a run out of the gate.
