Assessor Comments	Buyers, on offer are 91 predominantly Angus British x infused EU steers that are suitable for the Domestic trade feeder job or restockers looking to background. These steers would also be ideal to take through to heavier feeder weights or keep and take through to kill weights at a young age suiting the domestic markets. These steers present in store condition allowing compensatory weight gain to be had given the right opportunity, Steers stand good bone and show plenty of softness. Buyers please note Buffalo fly was just starting to become present on cattle at time of assessment, Steers have been bought by repeat buyers and come recommended.
