Notable Traits	Traits 3 Head Dried, retained purse. 3 Head Ringworm 1 Head Soft lump on nearside ear base. 1 Head Spot on eye.
Assessor Comments	A small line of good quality Speckle Park/Angus weaned steers. They would be ideal to background to feeder weights for the domestic or export markets. The steers were an absolute pleasure to handle through all parts of the yards and have been very well educated through the weaning process. These steers are growing well and are cleaning up in the coat nicely. Three of the younger end of the mob were only marked recently and at time of assessment their purse had dried up but not completely dropped off. One steer was noted at time of assessment to have a small soft swelling at base of nearside ear, he will be removed at delivery if deemed detrimental. Please note vendor has 4 lots total in the same sale.
