Assessor Comments	A line of 76 vendor bred Angus and Angus/Hereford heifers. A weight range of 360-474 kg to average 414.6kg at delivery. Heifers were peg tested empty on the 7/01/25 by MJA cattle scanning as a guarantee for the feedlots. These heifers are by Moogenilla Angus bulls and are out of large frame top quality Angus cows. Heifers show excellent growth, bone, and are

	not over done with plenty of weight gain in cattle. Buyers this is a great opportunity to secure high class females that are grass fed and Antibiotic free and can be taken out to domestic or export market. These Heifers were locked up for a good 20hrs before weighing for assessment and preg tested at same time. Please note there is a odd heifer showing signs of ring worm on skin not affecting the heifer as seen in photos.
