	Very easy weaners to handle and stood on the scales with a minimum of fuss & exited the crush camly. Properly yard weaned and educated. Have no hesitation in recommending their temperament. See video for how calm weaners are in the yards.

Assessor Comments	Lead draft of the Rogers Family Autumn drop Steer Weaners. Out of a high grade Angus Herd with the dams of these calves being predominantly Rennylea & Bowmont Blood. These steer weaners show all the positive attributes of the Angus breed - great temperament, growth and weight for age and easy doing. These steers will grow out into A grade feeders or take through to heavyweight grassfed kill cattle. Well bred, properly yard weaned, quiet steers that will continue to gain weight going forward. All calves weighed between 330 - 390kg at assessment. Close to 50% of these steers had a small amount of white underneath but none forward of the navel. Grassfed & antibiotic free declaration available upon request.
