| Assessor Comments      | The Clarke family are fourth generation cattle producers in the Upper Murray and have been using select Reiland Angus genetics in their herd for the last 20+ years. Always selecting Bulls with desired traits, being good 400 & 600 DW, IMF, EMA & strong maternal traits. Out of a large framed herd of heavily classed cows, these young females have good length, depth and width, with lovely, pretty faces. Cattle that have been repeatedly purchased by in-house clients for a number of programs. To be joined, grown out to supermarket specs, or taken right through to export weights. Heifers with the genetics and reputation to suit any operation and be a rewarding investment. Buyers please Note. Vendor also has another 2 lots of steers in same sale. |                                           |                                     |
