Assessor Comments	A very well bred line of purebred Simmental steers that are of moderate frame with strong bone and present in sound forward condition. Ideal steers to grow on to heavy export carcase cattle on either grass or grain, all the work has been done in maturing a frame all that remains is filling them up. Bred out of a moderate to large frame cow herd and sired by stud sires these steers have the potential to go on with management. * Note 1 steer has a small old calcified lump on his off side bottom jaw which has had no detrimental effect to his health and condition.
