Approx. 50% of the heifers are flighty in the yards and will settle down with handling.

Handled With: Vehicles

Assessor Comments: 43 Watervalley Black Angus Heifers, pregnancy tested EMPTY, Ex Mossdale Stn 350 - 482 kg weight range, Ave 390 kg LW Curfewed. All of the heifers have been mouthed and the heifers are 2 teeth 24 - 30 months of age. Presenting in fresh forward store condition coming through a dry autumn and winter fed on hay. They have a good medium frame in fresh condition that will gain weight quickly given good feed. Angus types, with the off types and lighter animals drafted out at assessment. Buyers should expect a small crossbred influence and hybrid vigour in a very small percentage. The Watervalley cattle are well known for their doing ability and will perform well for those buyers looking for improver cattle to add value to their purchases.
