Very well handled steers, flowed through yards and race well. Were settled in crush, odd steer exiting quicker.

Handled With	Bikes , Dogs , Horses , On foot
Assessor Comments	A exceptional line of EU Droughtmaster steers with all the hard work done. Very well bred with bone and length in store condition, ideal to take through as heavy feeders or grass bullocks. Steers have been on quick lick which has them clean in the coat and ready to jump ahead on fresh feed. Steers were weaned in August / September and normally grown to heavier weights. These steers will not disappoint, renowned performers. # Steers were mustered into the lane the afternoon before, but left on water.
