Heifers were mostly assessed as quite, and they were handled quitely. They were good to draft through portable panels, and flowed well, however were just a little bit unsettled as a mob, possibly because they are on a rising plain of nutrition and starting to feel pretty good.

Handled With	Bikes , Horses

Assessor Comments	Good and very good quality Angus and Angus cross heifers in store condition. These heifers were mostly bred on lighter country in the ticks, cleared and trucked in the middle of winter. They are just starting to clean up in the coat and look ready to power ahead on good nutrition. Ideal to background for domestic feeder markets or retain a draft for future breeders.
