Assessor Comments	Here is a line of good quality Angus heifers that have presented in forward condition that are highly suitable for a domestic feeder proposition. The heifers all show plenty of carcass traits with plenty of depth of barrel and length. They are also nice soft heifers and would make a future breeder to suit any joining program for a continued presence in the Angus job or an F1 Wagyu breeder. These were all mouthed milk and 2-tooth and have also had a vet scan them non detectably pregnant. The age is an estimation only as they are purchased heifers. There are a few with blue eyes and/or a dot in the eye and photos are attached as an example. Please note there is also a small lot of Charolais cross heifers in the sale as well from the same vendor.
