Assessor Comments

Here is a small line of good quality Charolais cross heifers that have presented in forward condition that are highly suitable for a domestic feeder proposition. The heifers all show plenty of carcass traits with plenty of depth of barrel and length. These were all mouthed milk and 2-tooth and have also had a vet scan them non detectably pregnant. The age is an estimation only as they are purchased heifers. Please note there is also a B-Double lot of Angus heifers in the sale as well from the same vendor.
