Assessor Comments A nice line of vendor bred Angus steer calves. At only 10-11 months old these calves are showing great shape and growth. Offered is the bulk of the Rosedale Autumn drop weaners with a few heavier steers and the tail removed leaving a very even draft of steers. Steers are up to date with their health treatments and have been putting on almost 1kg a day since being weaned a month ago. Steers are out of large frame cows by Rosedale Angus bulls. Bulls are bred with a focus on high growth, being 400 & 600 DW, & strong carcass qualities. Ideal lot of steers that given the opportunity will perform every day you have them.
