evident in these weaners. These heifers are quiet to docile and move easily and have been very well handled. One heifer was a little unsettled on the scales but settled immediately after being released.

Handled With

Bikes , On foot , Vehicles

Notable Traits

Traits

1 Head Active pink eye - treated at assessment.

Assessor Comments

Front paddock top quality weaned vendor bred Angus heifers. Hazeldean and Reiland blood heifers displaying the results of years of thoughtful genetic selection. These heifers are classed with only the best retained. This consignment represents the surplus of the drop, 20 head total with 10 retained. Classing criteria is predominantly focused on weaning weights and bloodlines to efficiently match bulls to females. The temperament of these weaners is second to none. They are a pleasure to handle being beautifully quiet. With correct stock sense and management there is no reason they will differ once they leave the property. These heifers are ideally suited to start or add to any breeding herd or even as a trade option to grow out and join for future breeders. The dams are large framed and have produced weaners that have performed well for previous buyers. Please note: brothers are also being offered in today's sale. Should you require any further information please call.
