Assessor Comments	A good line of mixed age cows with very good calves at foot. Vendor selling all coloured cows on property and retaining black herd. Majority are very large/large frame with approximately 4 medium/small frame cows. Cows were running back with Angus, Brangus and Hereford bulls November through December. Calves are very good and cows are milking well. Ideal cows and calves to fatten and split. Majority of calves could be weaned now or very shortly weaned and cows fattened. Please note - cow with growth on eye was inspected by a vet 12 months ago and noted as non cancerous. 1 male calf not weighed, approx 160 kgs, 4 calves 63 - 120 kgs with balance 120 - 277 kgs.
