Assessor Comments	A very nice line of young big framed Heifers and cows with calves at foot, cows present in great condition that are doing a good job of their calves. Calves have been marked and vaccinated and present in sappy condition. Three out of the five females mouthed 2 & 4 teeth and the other two cows were only fresh 8 teeth offering a long breeding life to their new owner, cows are reluctant sale due too a big downing sizing in farm size and are the last to be sold. Heifers and cows have not yet been rejoined. A great opportunity to buy great young breeders to continue breeding with or a great trade option with a two way split in coming months, the options are yours.
