Assessor Comments	Buyers, a line of mainly large framed Angus cows that have presented in very plain condition with the majority still only 6.5 years old. They arrived at Inverell on agistment in store condition back in early November and have started to improve in condition. These cows are all in the early stages of pregnancy and still offer a restocker an opportunity to continue breeding with in the short term. Once they reach their 'use by' date these cows have enough frame and capacity to reach heavy cow weights to suit a processor in the future. They also look to be sound in the feet and udders. There are 87 in the draft all up and will be delivered into two even lots should there be multiple buyers. There is a small amount of blue eye scarring in them however there doesn't appear to be any sight issues noted.
