1 Head White strip underneath to the navel									
Assessor Comments	A very smart line of heifers PTIC to LBW Alpine Angus bulls (EBVs attached). This first line of White tag heifers are well grown, long females, that display plenty of growth & capacity. Good cattle to assess and handle. These heifers will be an asset to any good herd or a great lift for a producer looking to secure higher end Angus breeding females. Rennylea blood, bred by 'Lerida Station' Gunning, NSW. Highly recommended. On farm inspections available by appointment. *Note there are a 2nd lot of White tag 'Lerida Station' bred heifers (38 head) and a further 4 other lots of differently bred quality Angus heifers in this sale totaling 129 PTIC heifers, all account of MJ Garvey
