| Assessor Comments | A wonderful opportunity to purchase a quality line of Hereford heifers PTIC to a LBW Wirruna bull. These lovely heifers come from a 20 year old breeding program which has been very consistent with selecting the best bulls and genetics available. They are out of a very good line of Stud Wirruna and Tarcombe Hereford cows, and evidently carry their mother's characteristics, they consist of good quiet temperaments and structural soundness. These are front paddock heifers that will be a great addition to any astute hereford breeder. They were joined with the bull from the 20th of May for 9 weeks and in the preg testers opinion they will calve within the first 2 cycles of the joining period, expected to commence calving early March. |
