Vendor Comments

KO Angus bloodlines, purchased as 3yo cows to fastrack quality into our commercial beef program. Easy calving full bodied cows consistently weaning their calves over 250kgs. Super quiet and well-travelled on and off trucks to our various properties.

Assessor Comments	Presenting a complete dispersal of Stecher Ag Commercial Breeding herd. Regretful sale of quiet, fertile breeders that are sound and right. Selling due to a refocus into the cropping side of the business. Cattle have been low maintenance and easy care which was paramount as a large portion of their life has been on agistment in Gippsland and the Monaro. Cattle endured a harsh winter as paddock space was at a premium, now benefiting from harvested crop paddocks cattle have quickly improved and now present in perfect calving condition. Texas and Temania Angus sons were used in joining period. Great trading opportunity with these girls given the positive outlook in the cattle market. The cows mouthed had short teeth with no gaps. 156 breeders across 6 lots in two locations.
